

PD Edge +

Unlock your potential with Professional Development Edge+

Step into a New Way of Online Learning

Updated 4/8/25

<u>Professional Development Edge+</u> is a subscription-based product with high-quality and dynamic professional development content, including:

Live Webcasts

The SOA produces approximately 70-100 webcasts each year. Each live broadcast runs 60–90 minutes and covers actuaries' core competencies presented by experts in each topic.

Recordings of Live Webcasts

500+ recordings of the live webcasts from the past three years are available five business days after the live broadcast.

Recordings of Live Conferences

600+ recordings of live sessions from SOA's major meetings (ImpACT, Health, and Life/ValAct) held over the past three years covering various topics and will be available six months after the live event

NEW! Learning Tracks

Introducing seven Learning Tracks that cover key actuarial topics, including Artificial Intelligence, Influential Leadership, Investment, Life Insurance, Long-Term Care, Medicare, and Retirement. The courses within the learning tracks are designed with learning objectives, summaries, audio and video clips, and interactive knowledge check questions.

Short-form Professional Development Videos:

These short-form videos (5 to 15 minutes) align with the new learning tracks. A team of experts creates these standalone videos, which offer essential information to actuaries.

This resource is accessible to all employees within your organization, irrespective of credentials or department, and is designed to allow SOA credentialed actuaries to meet CPD requirements through one product.

You can activate your subscription if you already have an existing SOA account!

Feel free to utilize this content for self-upskilling, particularly if you're transitioning to another department. The SOA consistently updates Professional Development Edge+ with new content, so be sure to check in regularly.
